cmsView

Simplify the attorney oversight process with web-based, secure and compliant, dashboard view into the firm's case details.

Powerful dashboard reporting highlighting caseload statistics: geographic coverage, saturation levels, firm timeline performance and much more.

Sophisticated drill down navigation that expedites compliance and audit reviews.

Direct line-of-sight to your vendor network's case level information reduces emails, calls and lengthy issue remediation cycles.

Streamlined integration with your vendor network eliminating the need for duplicate data entry.
