

a360inc Expands Offerings, Announces E-Filing in Illinois with CourtXpress Service

FOR IMMEDIATE RELEASE—THURSDAY, AUGUST 30, 2018

[DALLAS, TX] CourtXpress, an e-filing service of a360inc, announced today that the organization has expanded its e-filing service to include the state of Illinois. a360inc launched CourtXpress in 2012 in the state of Florida and has since conducted over 1.2 million filings.

CourtXpress is a certified Electronic Filing Service Provider (EFSP) through eFileIL. With the certification comes an assurance that CourtXpress' integration with the state's central electronic filing manager service (EFM) is compliant and that all filings and documents use established standards for uniform filings. Additionally, it completely transforms the way that law firms handle the filings of their pleadings today.

"Ensuring that our technology solutions address the needs of our law firm and mortgage industry clients is a core objective for a360inc. And the convergence of these solutions into one technology platform ecosystem enables our clients to leverage one vendor relationship to achieve a variety of operational benefits. The expansion of CourtXpress into the Illinois market is part of our strategic expansion in the e-filing arena," said a360inc CEO Scott Brinkley.

"Our core objectives are focused on improving the efficiency and profitability of law firms while ensuring they meet or exceed their clients' expectations. Every product and service we introduce, including this new service to firms in Illinois, are focused entirely on achieving that objective," said a360inc COO Jan Duke.
